PROFESSIONAL SUMMARY

IT professional with diplomas in Computer Science & IT (Programming) and Cyber Security, combining full-stack web development with a security mindset. Hands-on experience building and testing REST APIs with Node.js, Express and MongoDB, and auditing enterprise records to detect anomalies in a live environment. Currently pursuing the Blue Team Level 1 (BTL1) certification. Seeking a role in web development, SOC analysis (L1) or IT support where I can build secure systems and grow quickly.

CORE SKILLS

Security	Threat Identification, Vulnerability Assessment, Risk Management, Ethical Hacking, Security Awareness
Networking & Systems	TCP/IP, DNS, DHCP, Network Troubleshooting, Windows, Kali Linux
Web Development	HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs
Programming & Data	Python, Java, C++, SQL, MySQL, MongoDB, Power BI, Excel
Soft Skills	Problem-solving, Analytical Thinking, Attention to Detail, Communication, Teamwork, Time Management
Languages	Arabic (Native), English (Professional working proficiency)
Tools	VS Code, Postman, MongoDB Atlas, Vercel, Git & GitHub, ASP, C4C, Cisco Jabber

PROFESSIONAL EXPERIENCE

Quality Controller
Dec 2024 – Apr 2025

Al Khaleej Training and Education (Saudi Electricity Company) · Saudi Arabia

- Audited invoice and transaction records to detect anomalies and discrepancies, a pattern-recognition skill directly transferable to SOC log analysis.
- Investigated flagged issues and traced their root causes across systems, improving data accuracy and process reliability.
- Supported internal users and customers daily through ASP, C4C and Cisco Jabber, handling multiple tickets while maintaining high satisfaction.

Web Developer Trainee
May 2024 – Oct 2024

MVP Application & Game Design L.L.C. · Saudi Arabia

- Built and tested REST API endpoints in Node.js and Express connected to MongoDB, gaining insight into how applications expose data and where vulnerabilities arise.
- Diagnosed and fixed bugs across React.js frontends and Node.js backends.
- Validated requests and responses with Postman; worked daily with VS Code, MongoDB Atlas and Vercel.

PROJECTS

Leen — E-commerce Web Application
github.com/shouql1

- Designed and built a full-stack online store for unique and unusual products, including clothing, T-shirts, accessories and home décor, organized into multiple category sections.
- Developed the backend and REST API with Node.js and Express, stored products in MongoDB, and tested every endpoint with Postman.

Stack: HTML · CSS · JavaScript · React.js · Node.js · Express.js · MongoDB · REST API · Postman · Vercel

Interactive Portfolio Website
2026

- Built a bilingual (English / Arabic) CV website in HTML, CSS and JavaScript with an animated guide character, recorded voice narration and right-to-left layout support.

CERTIFICATIONS & COURSES

Blue Team Level 1 (BTL1) IN PROGRESS
Security Blue Team

Preparation course at Abad Institute, followed by the BTL1 professional exam.

Ethical Hacking and Cyber Security · Cyber Security Analysis · Python 101 · SQL 101 · Swift 101 · CSS · User Experience Design · Power BI · Microsoft Excel

EDUCATION

Diploma in Cyber Security
Threat identification, vulnerability assessment, risk management, malware and network-attack case studies.

Diploma in Computer Science & IT — Programming
Programming fundamentals, networking basics, software engineering principles.
